

Simple Tomato Soup

- 12 ounces tomato sauce or diced tomatoes
- 2 cups low sodium vegetable broth
- ¼ cup tomato paste
- 1 cup heavy cream, room temperature
- Salt and pepper

Combine all the ingredients in a saucepan. If you are using diced tomatoes, use a hand blender or high speed blender to make the soup smooth. Heat on medium high for about 10-15 minutes, but do not allow to come to a boil. Season with salt and pepper to taste.
